The highest quality Super Tuscan Wine “Luce”

LUCE 2006 **¥38,800**

[Italy, Toscana] Full Body

“Luce” is an unusual wine that differs from other “Super Tuscan Wines”

“Super Tuscan Wine” is produced in Tuscany often with a base of Cabernet Sauvignon grown all over the world, while this particular wine is produced in Tuscany with majority ‘Brunello’ (Sangiovese Grosso) grapes grown in Tuscany. By doing so, intentionally it preserves the characteristic Tuscan flavour.

Luce is “Super” because of the blend of Brunello and extra high quality Merlot produced from the lands of Brunello di Montacino, known as the birthplace of high quality Italian wine. This wine carries characteristics of both Brunello and Merlot.

Thus, Luce has strikingly gentle fruitiness, and impressions of elegance and full-body rather strong compared to Castel Giocondo, the wine from same region.

EMOTION Bourgogne Rouge **¥8,000**

[France, Bourgogne] Full Body

Don't miss out on Bourgogne red, dry wine lovers! This red boasts a more full-body and complex flavour than regular Bourgogne Pinot noir. Limited availability of the supreme quality AOC Bourgogne which, indeed, goes beyond the average AOC Bourgogne.

Owner of the vineyard, genius Vincent Girardin is world-renowned for the consistent development of high quality bottles. His vineyard's reputation has behind it a thorough winemaking philosophy: “a biodynamic approach to caring for vineyards, natural brewing as much as possible, while still using the most modern winemaking equipment.” The 50-year old Vieille Vigne Pinot noir was fermented in stainless steel for three weeks and pumped over (remontage). Subsequently it was softly pressed, aged for 12 months in French oak barrels (10% new oak) with Lee.

EMOTION Bourgogne Blanc **¥8,000**

[France, Bourgogne] Dry

Bourgogne white wine is made with 100% Chardonnay from A.C. Bourgogne farm in Puligny-Montrachet. Despite its ranking of “Villages”, this high quality wine performs for an incredible value, which is exactly the goal of the producer.
